## STANDARD FEATURES

### Engine and Transmission

- Permanent four-wheel drive
- Six-speed gearbox with high & low ratios
- 2.7 litre V6 turbocharged & intercooled diesel engine
- Hill Descent Control (HDC) with Gradient Release Control (GRC)
- Four-wheel Electronic Traction Control (ETC)
- Two-speed electric transfer box
- Front/rear split differentials
- Lockable centre differential
- 3.0 TDV6 Six-speed adaptive gearbox (2.7 optional)
- Diesel Misfuelling Device
- Four-corner air suspension with Terrain Response® and trip computer.

### Suspension and Steering

- Independent front & rear suspension
- Dynamic Stability Control (DSC)
- Roll Stability Control (RSC)
- Power assisted rack & pinion steering
- Trailer Stability Assist (TSA)
- Electric steering column lock.

### Safety and Security

- Electric Park Brake (EPB)
- Electronic Brake Assist (EBA)
- High level stop lamp
- Intrusion & perimeter alarm system
- Up to 8 airbags
- Four-channel all terrain Anti-lock Braking System with all round ventilated disc brakes
- Passive engine immobilisation
- Single point entry
- Auto lock on drive away
- Central high mounted stop lamp
- Locking wheels nuts.

### Interior

- Single disc CD player with six speakers
- Air conditioning
- Electric windows with one touch driver's opening
- Up to 7 full size seats with 3 point seat belts
- Cupholders on all rows
- Seat height & lumbar adjust for driver
- Non Smokers Pack.

### Exterior

- 17 inch Alloy Wheels
- Upper/lower split rear tailgate
- Electric heated & adjustable mirrors
- Colour coded front bumper
- Colour coded tailgate lift handle
- Tungsten finish door handles
- Tungsten finish air intake.

## FUEL ECONOMY

URBAN		EXTRA URBAN		COMBINED		CO <sub>2</sub> EMISSIONS	
Maximum	25.2mpg (11.1 L/100km)	Maximum	34.9mpg (8.1 L/100km)	Maximum	30.7mpg (9.2 L/100km)	Maximum	270g/km
Minimum	21.6mpg (13.1 L/100km)	Minimum	33.2mpg (8.5 L/100km)	Minimum	27.7mpg (10.2 L/100km)	Minimum	244g/km

The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle for which this information is supplied. Vehicles are not individually tested, and there are inevitably differences between individual vehicles of the same model. In addition, the vehicle may incorporate particular modifications that affect its fuel consumption. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance will all affect its fuel consumption. Information as to the results of the officially approved tests on all vehicles tested is available to customers on the premises where these vehicles are displayed.

**ON-THE-ROAD PRICE** – Includes Government Road Fund Licence – Discovery 4 £460 (Diesel) for 12 months, Discovery 4 TDV6 Commercial £240 for 12 months (effective 1st May 2009 - subject to statutory changes) and a £55 Government Vehicle First Registration Fee. Fuel supplied by the dealership and other goods or services supplied by agreement between customer and the dealership are not included.

Prices effective from July 2009. Prices shown are not inclusive of fitting charges. For use in the UK only.

\*20 inch Alloy Wheels must be fitted in sets of five.

†Roof rails and crossbars or sports bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce quality of the signal received by the vehicle and could have detrimental effect on the navigation and satellite radio system, if fitted. Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres will offer benefits in load holding and handling, but may be more vulnerable to damage in some off-road conditions, please discuss your requirements with your Land Rover dealership when selecting your vehicle specification.

\* Requires ISOFIX base

Prices effective from July 2009. Prices shown are not inclusive of fitting charges. For use in the UK only.

All Land Rover Approved Accessories fitted by a Land Rover dealership within one month or 1,000 miles (which ever occurs first) of the handover of a new vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to 12 months unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot or cold temperatures, corrosion resistance, impact and air bag deployment, highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation. All our accessories are designed to be an integral part of Land Rover vehicles, while many items such as roof carriers are simple to fit, some products require specialist tools and diagnostics equipment to ensure correct integration with the vehicle structure and electrical systems.

Our commitment is to a sustainable future. Everything from the design of our vehicles and the way we build them, to how and where we use them and, at the end of their life, to how they can be safely disposed of, Land Rover is committed to a sustainable future. We're committed to reducing our impact on the environment and are working in four key areas.

## e\_TERRAIN TECHNOLOGIES.

In 2007 we announced a joint investment into new technologies to improve the environmental performance of our vehicles. This joint investment now stands at £800m. Building on the innovation of the Land\_e concept, the first of these technologies is the Stop/Start engine in our diesel manual Freelander 2. In 2008 we revealed our new concept vehicle, the LRX; a Land Rover in body and spirit but conceived as a hybrid 2.0 litre diesel with potential CO<sub>2</sub> emissions of 120g/km.

## SUSTAINABLE MANUFACTURING.

World class manufacturing facilities. Certified to ISO14001 since 1998. Our manufacturing facilities at Solihull and Halewood have reduced emissions by around 4 percent year on year, over the last 5 years. Our TDV6 and TDV8 engines are assembled in the Dagenham Diesel Centre which is powered by wind turbines. Total energy used in manufacturing each vehicle has been reduced by 19 percent since 2002. While water use per vehicle has been cut by 14 percent in the same period. We're also offsetting all CO<sub>2</sub> emissions by the manufacturing assembly of Land Rover vehicles at both plants. Partnered with specialist organisation Climate Care, our offset projects include a wind farm in China and hydro electric generators in Tajikistan. In addition, Land Rover vehicles are now designed to be 85 percent recyclable with all current models meeting the European End of Life Vehicles Directive. Sustainable and recyclable materials play an important role too: Freelander 2 contains 10 percent recycled and 10 percent renewable materials.

**CO<sub>2</sub> OFFSETTING** in 2006, in the UK, we launched a pioneering programme for customers, independently administered by Climate Care, to offset CO<sub>2</sub> emissions for the first 45,000 miles (72,000 km) driven for all new Land Rovers. This programme is being rolled out progressively to other countries; to date in Austria, Belgium, The Netherlands, France, The Middle East, Norway and Sweden. In addition, we're also the first automotive company to offset 100 percent of our manufacturing assembly CO<sub>2</sub> emissions.

#### **GLOBAL CONSERVATION AND HUMANITARIAN PROJECTS.**

Land Rover vehicles are used by conservation and humanitarian organisations worldwide and are often first choice for difficult tasks. Organisations include the Born Free Foundation, Biosphere Expeditions, Royal Geographical Society (with IBG), China Exploration and Research Society and Earthwatch Institute. Our projects are diverse, ranging from an initiative to help with the protection of rare wolves in Ethiopia, to a project funded by our CO<sub>2</sub> offset programme which provides efficient cooking stoves to rural parts of Uganda.

Our planet. We take our responsibility to our planet very seriously. Our vehicles are designed for purpose. As part of our Fragile Earth policy Land Rover has actively promoted responsible off-road driving since 1990. Our Experience Centres teach drivers to understand the full potential and unique breadth of capability of their vehicles while reducing impact on nature and the environment, in a wide range of activities.
