***ON-THE-ROAD PRICE** - Includes Government Road Fund Licence - £170 for 12 months (subject to statutory changes) and a £38 Government Vehicle First Registration Fee. Fuel supplied by the dealership and other goods or services supplied by agreement between customer and the dealership are not included. Prices effective from March 2007. For use in the UK only.

**The results given here do not express or imply any guarantee of the fuel consumption of any particular vehicle for which this information is supplied. Vehicles are not individually tested, and there are inevitably differences between individual vehicles of the same model. In addition, the vehicle may incorporate particular modifications that affect its fuel consumption. Furthermore, the driver's style and road traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance will all affect its fuel consumption. Information as to the results of the officially approved tests on all vehicles tested is available to customers on the premises where these vehicles are displayed.

Land Rover is committed to the challenges of sustainable development. The Land Rover CO₂ Offset

Programme is a significant step towards this goal, offsetting emissions from both the manufacturing process and from Land Rover vehicles by providing funding to 'carbon neutral' projects across the world. All UK Land Rover vehicles from 2007 model year include as standard the CO₂ Offset Package which is based on offsetting the CO₂ produced by a vehicle over 45,000 miles.
