

5 metre sports/fishing boat with 80hp Mercury outboard

This boat was built by Outhill Boatbuilders in England under the name of **Flying Fox** and sold to me new in 1992. It is an extremely well built boat which seats 7 people and has masses of storage. It is a good, safe seagoing boat with high gunwales making ideal for fishing. It can also be used for coastal exploring and water-skiing. It is easy to launch and recover from the trailer single handed.

The engine has been serviced each year and used primarily in fresh water but when used in salt water, has had a fresh water wash after each use, including fresh water being flushed through the engine. It has a brand new prop fitted.

For its age, it is in very good condition and I am only selling it as my children have flown the nest and it needs to be taken on by a new family who will make more use of it.

It comes with masses of equipment including

- Heavy duty cover
- Centre Console cover
- Fold away cuddy/shelter
- Two anchors
- Sea anchor
- Bilge pump
- Navigation lights
- Mooring pole
- Toolkit
- Owners and Maintenance manuals
- Fenders
- Mooring lines
- Two fuel tanks
- Heavy duty battery
- Fire extinguisher
- Fish finder/depth gauge
- Rev meter
- Speedometer
- Ski rope attachment rings
- Ski rope
- Spare prop

Price £3900
