

DISCOVERY

ABOVE AND BEYOND

DISCOVERY NEW FEATURES FOR 2015

CONVENIENT DRIVER TECHNOLOGIES

Optional new technologies are available to help make driving Discovery even more pleasurable. InControl™ Apps offers a variety of smartphone apps for use via the vehicle's Touch-screen.

INTERIOR DESIGN ENHANCEMENTS

There is an option of either a Grand Black Lacquer or a Straight Grained Walnut wood and leather steering wheel.

NEW EXTERIOR DESIGN FEATURES

There is a choice of three new exterior colours available: Aruba, Kaikoura Stone and Montalcino Red.

The Land Rover Discovery's design is bolder and more distinguished than ever. That's why Discovery is always in its element, whether it's crossing town or taking everyone way beyond the city limits for the weekend. The design of Discovery has been accentuated by the use of jewel-like front lights giving the vehicle a contemporary look. While at the rear, the split tailgate has been designed for maximum reach and flexibility to make loading awkward objects easier.

Model shown above with optional 20 inch five split-spoke 'Style 510' alloy wheels.

Heading away from the city towards the great outdoors should be a pleasure. That's why Discovery features advanced technology to help the driver feel more connected to the road and deliver a more engaged and responsive drive. The vehicle measures up to the most demanding criteria: whether that's in improved fuel economy, power or performance. Now, getting there can be as enjoyable as being there.

Stadium seating gives everybody unspoiled views, with head, leg and shoulder room that are among the best in class and full-size seats for up to seven adults. These are just some of the benefits of Discovery's bold design and upright side profile.

And with a range of infotainment and technologies to choose from, everyone will be entertained, relaxed and comfortable.

What Discovery gains in practicality and space, it doesn't compromise in comfort and attention to detail. Its tactile interior is a contemporary and beautifully crafted environment. The seats are available in a variety of materials such as Windsor leather, which include electrically adjusted bolsters that give the driver even greater support. Double-stitching on the fascia top is just one indication of the high-quality finish throughout the vehicle. If Land Rover has attention to detail in its design ethos, it also has capability at its heart and Terrain Response® proves it. This proprietary technology acts as an off-road expert enabling the driver to tackle almost every surface with confidence.

At the touch of a switch, Terrain Response® reconfigures Discovery's engine, transmission, throttle and traction settings for optimum drive-ability.

So whether travelling over tarmac, grass, gravel or snow, mud and ruts, sand or rocks, the vehicle takes to it with consummate ease. With exceptional ground clearance and short front and rear overhangs, Discovery is cleverly proportioned. Together with impressive torque and delivery of power, these attributes ensure the vehicle is eminently capable and highly manoeuvrable on the most demanding terrain.

Model shown above with optional 20 inch five split-spoke 'Style 510' alloy wheels.

For over 65 years Land Rover has become renowned for many innovations, one of which is the legendary Command Driving Position. From here, the driver gets an unparalleled view of the road – or obstacle – ahead and greater all round visibility. Hazards can be spotted earlier, parking is made easier and as all the key controls come readily to hand, it can help reduce stress and fatigue. With five digital cameras mounted around the vehicle, the Surround Camera system provides a near 360° view. This greatly aids low-speed manoeuvrability in such situations as parking. By customising the number of images the camera relays to the Touch-screen, other functions such as Tow Assist can be utilised.

As a vehicle enters a steep downhill gradient, there is a moment when the feeling of sudden acceleration can occur, which is why Gradient Acceleration Control has been incorporated into Discovery's standard Hill Descent Control technology. This feature helps reduce that unwelcome feeling of increased speed and smoothes out the overall effect to make descent feel more assured and composed.

Discovery goes further. Its capability is born from the first Land Rover and is renowned across the city, across country and across the globe. Its contemporary design is purposeful and its drive, connected and assured. Add class-leading versatility with seven full size adult seats and the picture is complete.

SPECIFICATION

Discovery offers an exclusive range of options that allow you to personalise your vehicle. The following pages take you through a logical series of steps to create your ideal Discovery. You have several choices: from selecting your model to exterior and interior colours before choosing your wheels, finishes and additional options.

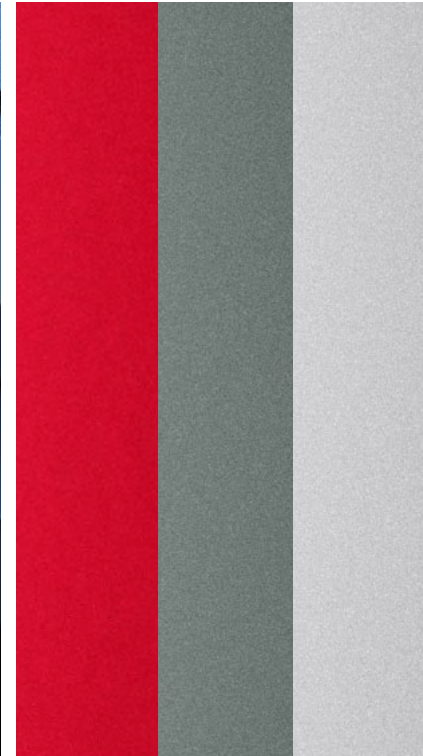

If you'd like to bring your options to life, go to our online configurator at landrover.co.uk

Step 1

Choose your model

Compare the standard features on each model.

Step 2

Choose your colour

There's a wide range on offer to enable you to express yourself.

Step 3

Choose your wheels

There's a range of styles, each one designed to complement the bold exterior.

Step 4

Choose your interior

Carefully selected colours complemented by a range of finishes. You can personalise your own interior space.

Step 5

Choose your options

Additional options can enhance your personal requirements.

Key Features

The latest innovations that make your vehicle a pleasure to drive.

Technical Details

Technical information and data for dimensions, performance and specifications.

Accessories

A range of stylish and practical accessories. You can tailor your vehicle to your specific needs.

STEP 1 CHOOSE YOUR MODEL

Model shown above with optional 20 inch five split-spoke 'Style 510' alloy wheels.

STEP 2 CHOOSE YOUR COLOUR – BLACK DESIGN PACK

Personalising the exterior

The optional Black Design Pack has its own special character. The exterior sports full length Black roof rails and Narvik Black mirror caps, fender vents and door handles. The Gloss Black grille with bright insert, Black fog lamp bezels, Black 'DISCOVERY' bonnet and tailgate badging with no engine or derivative badge add to the design to give the vehicle a more contemporary feel. A moulded Anthracite tow eye cover, privacy glass and 20 inch five split-spoke Black alloy wheels complete the look.

*Only available as part of Black Design Pack.

Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres may offer certain styling or driving benefits, but may be more vulnerable to damage. Please discuss your requirements with your Land Rover Dealership. For further details on tyre efficiency as required by EU legislation please speak to your Land Rover Dealership.

KEY FEATURES

Model shown above with optional 20 inch five split-spoke 'Style 510' alloy wheels.

[Models](#)

[Print](#)
[Save](#)
[Exit](#)

KEY FEATURES

Automatic headlamps with High Beam Assist and xenon adaptive headlamps with LED signature*

Detects vehicle headlamps/tail lights and dips the high beam until the light source is out of range. The system is able to distinguish between automotive and non-automotive light sources.

Signature LED lights combine practicality with distinctive design. For more relaxed night-time driving, Adaptive Lighting varies the light cast ahead of the vehicle so that the beams follow the curve of the road.

Steering Wheel Controls

The steering wheel with ergonomically designed switch layout for driver information and remote audio controls. Cruise control, telephone and heated steering wheel controls are optional depending on the vehicle derivative.

*Optional.

Visit landover.co.uk for more information.

Air Suspension

Four-corner independent air suspension features variable ride height and electronic cross-linking for a constant level ride height irrespective of load distribution. Ride height can be raised up to 125mm to clear obstacles or lowered by 50mm for easy access and loading.

Split Tailgate

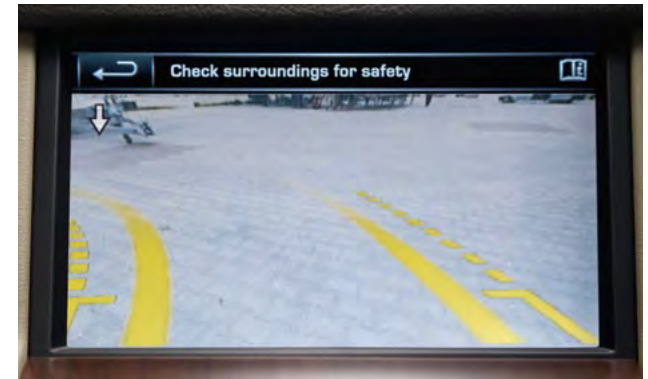

Make light work of difficult loads with Discovery's two-piece, asymmetric tailgate design. Both upper and lower tailgates are made from resilient lightweight aluminium. The tailgate gives impressive access to the rear of the vehicle and comes into its own when loading large, bulky or heavy objects. The asymmetric portion of the lower tailgate provides a reduced reach-in distance when open and a lower load height when closed.

Terrain Response® System and Gradient Release Control

The Terrain Response® System optimises the vehicle set-up for virtually all on-road or off-road driving situations, with five different settings to suit different terrains such as tarmac, grass, gravel or snow, mud and ruts, sand or rocks.

Gradient Release Control is a patented Land Rover system that works with Hill Descent Control (HDC®) across terrains such as rock, gravel and sand for more controlled, confident descents. Works in reverse and first gear.

Parking Aid*/Rear View Camera*/Surround Camera System with the new T-Junction Camera*

The Rear View Camera provides a rearward view from the full colour Touch-screen and works in conjunction with the rear parking aid.

The Surround Camera System comprises five digital cameras to provide a near 360° view surrounding the vehicle to aid low-speed manoeuvring via the full colour Touch-screen. Can be customised to provide a single camera view or multiple images. Functions include: Parking Aid – Rear View Camera, All Round Vision, Junction View. Also includes Tow Assist and Tow Hitch Assist.

KEY FEATURES

Intelligent Stop/Start

A welcome addition, designed and engineered to help reduce CO₂ emissions and improve fuel economy. The system is automatically engaged when the ignition is turned on and when the engine is no longer required, at traffic lights for example, it will turn itself off. From a standstill, when the vehicle is in Drive, Sport or Reverse, the engine will instantaneously restart when the brake pedal is released.

InControl™ Apps

Land Rover InControl™ Apps enables you to use vehicle optimised smartphone apps on the vehicle's Touch-screen. Using the InControl™ Apps USB port you can enjoy a variety of vehicle optimised apps such as: Contacts, Calendar and Music Player, with more third party vehicle apps being released over time. Your smartphone will also be re-charged whilst using the feature.

In Car Entertainment*

The Meridian™ Audio System delivers superb acoustics and is noted for its excellent reproduction quality from all sources – radio, CD, iPod® or USB. The optional Meridian Surround Sound System features 17 speakers including a subwoofer for full surround sound.

Rear Seat Entertainment*

The Rear Seat Entertainment package ensures passengers can always be engaged. With two eight-inch screens built into the front headrests, a pair of WhiteFire® digital headphones and a dedicated remote control, passengers can feel truly at home with their choice of film, TV or music.

Compact Smart Key – Keyless entry/Push Button Start*

Once the vehicle has been accessed using the remote transmitter, the device may be stored in a pocket or bag to allow starting without its use. The optional Keyless Entry system provides even greater convenience. When within close proximity of the vehicle along with the remote Compact Smart Key, simply open the door, get in and push the Start button.

The Portable Audio Interface

Allows the connection to the in-car entertainment system of an iPod® with full track and search integration. An MP3 player or a mass storage device can also be connected via the USB port.

*Optional on some models. †Available as part of Exterior Detection Pack.

iPod® is a trademark of Apple Inc., registered in the U.S. and other countries. WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such names by Land Rover is under license.

KEY FEATURES

Sunroof with Alpine Roof*

Even the rearmost passengers enjoy a glass roof in Discovery with the optional sunroof with Alpine roof. The sunroof tilts and slides electronically and the combined reflective properties of the glass panel and interior sunblinds keep everyone cool and the cabin light and airy.

Hard Disk Drive Navigation*

With prompt access speed, graphics and display, the Hard Disk Drive Navigation System stores up to 40GB of data. Navigation mapping can be upgraded via a Land Rover Dealer download.

Additional features available on HDD-equipped vehicles are DVD Audio and MP3 DVD playback and Virtual CD Auto Changer which saves up to ten albums (in uncompressed format) to the HDD and provides track information for easy identification of CDs and tracks.

Timed Climate*

Optional, including Park Heat. Provides pre-heat to the engine with residual heat channelled into the cabin. It can also provide ambient venting to supply fresh outside air to the cabin, for example when the vehicle has been parked in the sun. Timed Climate allows the system to be programmed up to seven days in advance via the Touch-screen. A separate remote control is also available.

Blind-spot Monitor/Closing Vehicle Sensing*†

Using sensors mounted behind the rear bumper, these systems are designed to see what you might miss. When a vehicle enters a blind spot, a warning light will show in the corresponding door mirror.

Closing Vehicle Sensing scans a zone much further behind the vehicle, to help detect vehicles which are closing quickly from behind and which could cause a threat during a lane change manoeuvre.

Reverse Traffic Detection*†

Using radar detectors in the rear of the vehicle the system is designed to warn you about potential collisions during reversing manoeuvres. The system can help detect a vehicle approaching from either side. When a target vehicle with a credible 'time to collision' is detected (a collision within three seconds or less), the system alerts the driver. Three warnings are given: an indicator lights up in the corresponding door mirror, an audible alert is sounded and a warning symbol is displayed on the camera screen.

Wade Sensing™*†

Using sensors in the door mirrors when the vehicle is wading, it alerts the driver if the water is too deep. The feature is particularly useful when visibility is poor or when driving at night. This feature provides real-time pictorial wading information including the depth of the water in relation to the vehicle, as well as maximum wading capability of the vehicle.

DIMENSIONS AND CAPABILITIES

Front wheel track 1,605mm

Wheelbase 2,885mm

Overall length 4,829mm

Standard Ride Height

With Alpine sunroof (not open) 1,882mm
 With Fixed Roof 1,887mm
 With Roof Rails 1,891mm
 With Alpine sunroof (open) 1,920mm
 With DAB Radio Antennae 1,938mm
 With Roof Rails and Crossbar fitted 1,980mm
 Access height setting, only available with air suspension, will reduce each of the above by 50mm.

Loadspace Capacity

Rear seats upright
 Height 1,027mm (1,058mm with Alpine sunroof),
 Width 1,235mm
 Loadspace volume 1,260 litres
 Loadspace width between arches 1,146mm

Rear seats folded
 Height 1,027mm (1,058mm with Alpine sunroof),
 Width 1,235mm
 Loadspace volume 2,558 litres
 Loadspace width between arches 1,146mm
 Maximum length at floor 1,950mm

Headroom

Maximum front headroom 1,020mm
 Maximum front headroom with Alpine sunroof 1,027mm
 2nd row headroom 1,043mm
 2nd row headroom with Alpine sunroof 1,076mm
 3rd row headroom 983mm
 3rd row headroom with Alpine sunroof 1,018mm

Obstacle Clearance

Off-road height up to 310mm
 Standard ride height up to 185mm

Wading Depth

Maximum wading depth
 With Air suspension: 700mm
 With Coil suspension: 600mm

Turning Circle

Kerb-to-kerb 11.45m
 Turns lock-to-lock 3.32

Rear wheel track 1,612.5mm

Width 2,053mm mirrors folded
 Width 2,200mm mirrors out

Discovery is so capable and adaptable it can get straight to work across a huge variety of vastly differing terrains, conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Discovery to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalisation to Discovery. Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

STYLE

This range of stylish yet practical accessories will give your Discovery a distinctive, contemporary look and add a touch of luxury to every drive.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Dealer within one month or 1,600 kilometres/1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Dealer who will be pleased to advise you on current specifications and any query you may have.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer.

Castrol EDGE Professional exclusively recommended by Land Rover.
